

# Brudenell family One-Name Study

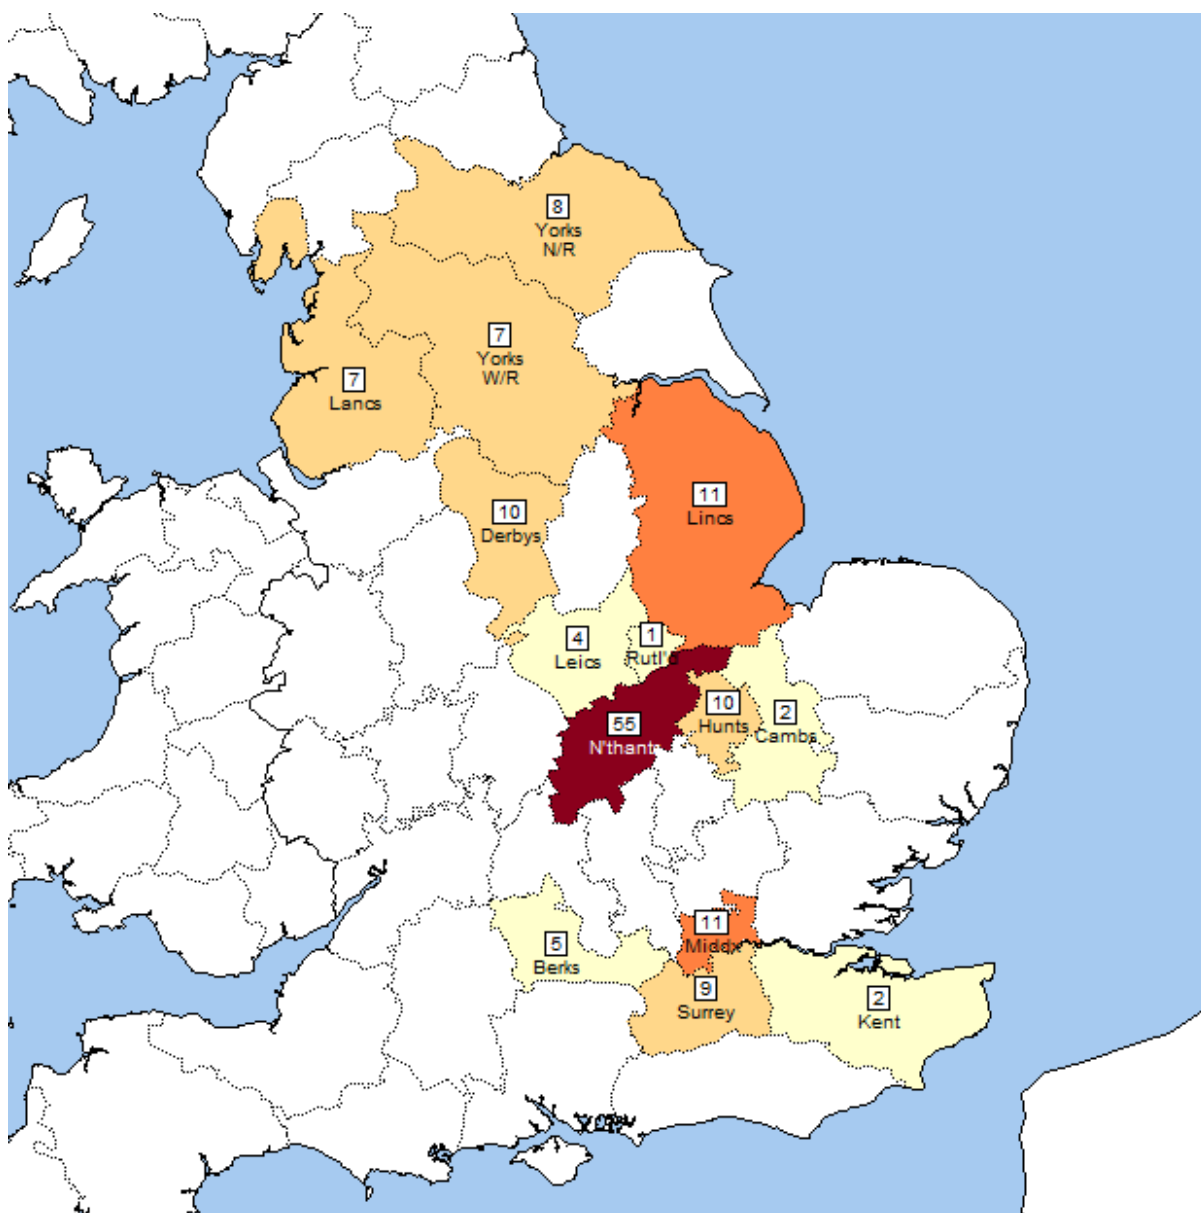

---

Shown here is the distribution of the BRUDENELL (and close variants) surname throughout Great Britain in 1881, taken from the census of that year. There were 142 instances of the name.

In 2002 there were 712 current instances of the surname in England and Wales. This data comes from the Office for National Statistics database [www.taliesin-arleyn.net/names/search.php](http://www.taliesin-arleyn.net/names/search.php). As there is a large difference in numbers between 1881 and 2002, it may well be there are several historical variants still to be proved.
